

Turf Fact Sheet

Kings Pride Buffalo

Kings Pride is a soft leaf Buffalo variety is a totally new Australian soft leaf buffalo grass that is greener for longer, softer than ever, yet even more hardwearing. It was first discovered growing wild proving it's natural ability to thrive in Australia's testing climate and has been extensively researched and tested since 2002. Kings Pride has been proven by national trials to be among the top rating of 14 Buffalo's throughout Australia, frequently rating number 1. When you purchase King's Pride, you will receive a certificate of authenticity and quality and every roll purchased comes with a total satisfaction guarantee from the growers.

Maintenance

- When mowing, no more than 30-40% of the leaf should be removed in any one mow. Keep mower blades sharp and do not cut wet grass.
- Kings Pride can be cut short. In a shady position it should be kept longer at all times, in spring, the lawn can be mown down to a height of 15mm (except in shady areas) and fertilised.
- Summer, mow every 7 – 10 days, autumn and winter every 2-4 weeks, if necessary.

Why Choose Kings Pride Buffalo?

Kings Pride is a high quality, low maintenance shade tolerant grass which is ideal for heavy traffic areas.

Features include:

- the ability to maintain a crisp, green colour in summer and winter
- not damaged by any registered chemicals applied at label rates
- provides good wear tolerance in high traffic areas (backyards with dogs, heavily shaded playgrounds, etc)
- best wear and tear capacity
- superior shade tolerance
- winter colour (stands out under heavy frost)
- drought hardy
- an easy all round lawn to maintain
- a turf that is able to offer a high quality appearance without professional care

Kings Pride can tolerate drought conditions once established.

DROUGHT TOLERANCE 8 / 10
WEAR AND DURABILITY 9/10
SHADE TOLERANCE 8 / 10
LOW MAINTENANCE 8.5 / 10
