Pricing

Premium Organic Mix 40kg Pellets \$55.00

All organic Doctor for your flowers, shrubs, trees and vegetables. Added natural Zeolite and other active ingredients to encourage slower and safer release of nutrients, less odour and increased worm activity.

Granulated Organic Lawn Mix 30kg \$55.00

Granulated, slow release action to minimise fertiliser burns. High nitrogen base to encourage quick sustainable growth and stronger root systems.

Premium Lawn Mix 25kg \$55.00

Granulated high nitrogen base chemical fertiliser especially formulated to encourage stronger root systems and greener turf growth.

Soil tests available From \$44.00

We can test your soil and develop a suitable fertilising program to ensure you are not wasting your money on unnecessary additives and we can identify other abnormalities in your soil and check the ph level.

Weed spraying up to and per 100 square metres From \$53.90 per spray

Either spraying of existing broadleaf weeds in your lawn or spraying of glyphosphate to kill unwanted weeds and growth in pathways, driveways, unused gardens, etc.

Pre-emergent treatment From \$55.00

Recommended use twice yearly autumn and spring, to eradicate weed seed before germination.

Black Beetle and Grub treatment per 100 square metres From from \$33.00

For treatment of Black beetle in lawns.

Aquastore Treatment with fertiliser per 100 square metres From \$55.00

Wetting treatment that improves water penetration and drainage, reduces watering time, increases the absorption of fertiliser. Ideal to apply after Coring.
